- Say: He is Allah, the One and Only.
 - Allah, the Eternal, Absolute.
 - He begetteth not, nor is He begotten.
 - And there is none like unto Him.
- (d) The sun is not permitted to overtake the moon, nor does the night outstrip the day; each is floating along in its own orbit.

Part C—Composition

9. (a)

Price Hike

At present price-hike is one of the most talked topics. Nowadays price-hike has become a great threat to our socio-economic life. It is a serious problem for the middle class and low class people. Price is the measuring rod of goods or products. After fixing the price, goods are given out to the market for satisfying public demand. Price rises when the supply decreases. The following reasons are responsible for price-hike: scarcity of the goods, political crisis in the country, production, interruption in communication, lack of raw-materials; more demand than supply, maladministration in the state, hypocritical policy of the smuggler etc. There should be an exact reason to price-hike. But at present we see that price-hike is a very common matter. Businessmen increase the price of their products without showing any appropriate reason. Their main aim is to gain illegal money. It is very pathetic that because of price-hike people living under poverty level become helpless in the question of survival. More or less all the people suffer much from the problem of price-hike. So, for the welfare of the common people, the government should take an effective action to prevent price-hike. Without it, our economy cannot run properly.

(b)

Smart Bangladesh

To turn Bangladesh into 'Digital Bangladesh' is a much talked slogan of the present government of Bangladesh. It means digitalizing Bangladesh by ensuring an ICT based society. Information will be available online and where all possible tasks of the government and other non-government or semi-government organizations will be performed using digital technology. The motto of digital Bangladesh is to establish technology based digital governance, e-commerce, e-agriculture, e-production, e-education, etc. emphasizing the overall development of the country and the nation. The benefits of digital Bangladesh are many. By setting up a digital Bangladesh, corruption will be drastically reduced by enhancing transparency and accountability. It will make people think globally and connect them with the whole world economically, politically, socially, academically and even culturally. It will improve banking and financial activities. Agriculture, health, education, commerce - all these sectors will be highly benefited by making Bangladesh a digital one. For implementing this dream of digital Bangladesh, government has to take certain initiatives. First of all, uninterrupted power supply has to be ensured. We have to develop computer network infrastructures throughout the country. We also have to train our people to acquire ICT skill and ensure equitable access to digital governance will curb crime and corruption and pave the way for our country's rapid development. So, to see our country a digital one, government's commitment and people's co-operation are urgently required. Finally, our education should be computer based and in primary and secondary schools students should get easy access to the computer. It will give us immense benefit very soon.

(c)

The Duties of a Madrasah Student in the Society

A madrasah student has many important duties in the society. He is not only a learner of religious knowledge but also a future guide for the community. His first duty is to gain proper knowledge of the Quran, Hadith, Fiqh, and other Islamic teachings with honesty and hard work. Along with this, he should develop good character, such as honesty, patience, kindness, and respect for others. A madrasah student must also learn how to behave well with people and live a simple, clean, and disciplined life. One of the main responsibilities of a madrasah student is to spread the message of Islam with peace and wisdom. He should help people understand the difference between right and wrong according to Islamic teachings. In society, he should act as a role model by showing good manners, helping the poor, and supporting those in need. His behavior should inspire others to live a better life. A madrasah student should also take part in social activities like teaching younger children, guiding people in prayer, and giving moral support to those in difficulty. He must avoid bad company and always stand for truth and justice. As a future Islamic scholar or leader, he must prepare himself to serve the community with knowledge and kindness. In short, a madrasah student plays a big role in building a better society. Through his learning, good actions, and service, he can help create a peaceful and honest community that follows the path of Islam.

10. (a) Dhanmondi Road, Dhaka

September 20, 20--

My dear Rezaul,

I received your letter yesterday. You wrote that you were awarded a prize for the competition in general knowledge. I am very glad to know it. Nowadays it is essential to learn more about the world around you. But if you want to do so, you have to read an English newspaper daily. A newspaper is a storehouse of knowledge. It supplies news about almost all the current events of the world in the shortest possible way. Besides this, to be a civilized person, you must be aware of the social, political and economic conditions of the present day world. Moreover, it is only an English newspaper which can improve your English. By reading it you can know modern science too. There are also news about business and sports in the newspapers. In short, you will communicate with the whole world through newspaper. So, I must advise you to read an English daily as the habit of reading English newspapers is very useful to you.

No more today, write to me as soon as possible. Convey my compliments to parents. Best wishes to you.

Your elder sister,

Khaleda

- (b) Kashiani, Gopalganj

10 October 20--

My dear Altab,

I have received your letter on time. I am sorry I could not reply to it earlier because I was busy with my studies. You wanted to know about my preparation for the coming Fazil examination. Well, you will be glad to know that I have made quite a good preparation for it.

Mathematics seems very interesting to me. I hope, I would be able to cut a good figure in Mathematics. I have also read thoroughly almost all the topics of Physics, Chemistry and Zoology. I think, I will do well in English also. Special classes are being taken by our teachers at college. I can assure you that if Allah wishes, I will be able to save the face of my parents in the ensuing examination. I am well.

With best regards to your parents and love to the younger brothers and sisters.

Ever yours,

Jaman

- (c) 29 November 20--

The Principal

Darunnazat Kamil Madrasah, Dhaka

Subject : Application for permission to go on a study tour/excursion/picnic.

Sir,

We, the students to the Fazil classes of your madrasah, would like to state that we intend to undertake a study tour/excursion/picnic to some important historical places of our country. We have already chalked out a programme which includes visit to Paharpur, Mahasthangarh and Mainamati. Such a tour will go a long way to dispel our monotony and renew our zeal for study. Besides, this will open up a vista of our distant past and furnish us with much knowledge.

Our party will consist of 150 students and two teachers of the Department of General History. We shall need fifteen days to complete the programme. The expenditure will be borne by ourselves on equal contribution.

In the circumstances, we hope that you would be kind enough to accord your permission to this programme and oblige us thereby.

We remain,

Your most obedient pupil

Md. Rimon Ahmed

On behalf of the students of the madrasah

11. (a) A dialogue between two friends Shorif and Shohan about the bad effect of smoking :

Shorif : Hey Shohan, what's that dangling between your lips?

Shohan : Don't you know? It's cigarette. Isn't smoking cigarettes a dandy?

Shorif : Never. Don't you know it causes a lot of diseases beginning from bronchitis to cancer?

Shohan : But film heroes smoke profusely. Isn't it manly and heroic?

Shorif : You're a fool. Your illusion is fake. Fie, your heroism.

Shohan : Then? Why?

- Shorif : Researchers have shown smoking has no gain but many losses, the greatest loss being that of your life.
- Shohan : Is it? Then why so many people smoke? I have seen even doctors smoke.
- Shorif : Yea, they do so as slaves to their bad habits. They know fully well about the effects of smoking but they're so much addicted that they can't come-out of their circuit. As you're a new smoker, you can shun it soon.
- Shohan : Is it? I didn't know all these. I promise to leave it.
- Shorif : Really, you promise!
- Shohan : I promise, promise, promise.
- Shorif : Here you're my dear friend. Thank you, dear.
- Shohan : Thank you, too.

(b) A dialogue between two friends (Kamal and Roni) about the merits and demerits of mobile phone :

- Kamal : Hi, Roni! How are you?
- Roni : Thanks. I'm fine. And you?
- Kamal : I'm fine too. It's long time since I met you last. Mobile phone keeps our relation ever fresh.
- Roni : Yes, a mobile phone is a very important factor in our life. Nowadays it became the part and parcel in our daily life.
- Kamal : Mobile phone has made our life easy and comfortable. It has brought the world within our closed fist. We can send news to our near and dear ones instantly sitting in offices, houses and hotels even in moving cars and other vehicles.
- Roni : I've seen its utility in global communication. It's equally useful in all spheres of life and for all professionals. A businessman finds it more useful and effective to run his business smoothly. Even in domestic affairs, a customer may review his choice, a consumer may order for his desired goods. A student can learn anything by talking with his teacher staying at home. It is also useful for doctors and high officials.
- Kamal : What are the abuses of mobile phone?
- Roni : By using the mobile phone the terrorists and the criminals carry out their evil desires and commit crimes without much difficulty. Sometimes the criminals use other's mobile phone to maintain their secrecy. Excessive uses of mobile phone causes brain tumour, genetic damage and many other incurable diseases. It's especially hazardous for the children and pregnant women.
- Kamal : In spite of some such drawbacks, there is no alternative to mobile phone in community with people at home and abroad.
- Roni : Ok. No more today. Thank you for giving me such valuable information.
- Kamal : You are most welcome. Good-bye.
- Roni : Good-bye.

(c) A dialogue between two friends (Rimon and Ashif) about the advantages and disadvantages of Internet:

- Rimon : Hi Ashif! How are you?
- Ashif : I'm fine, you?
- Rimon : I'm fine too. What are you thinking about?
- Ashif : I need to know an information.
- Rimon : It doesn't matter. You can know any kind of information using Internet such as admission, job, education, medication etc.
- Ashif : I've already searched but I haven't found the required information.
- Rimon : You can use the google search engine.
- Ashif : Do you tell me what are the advantages of internet?
- Rimon : Of course. Communication of data and storage of data are the foremost facilities of internet. Though email we can send text and message to the other users in any place of the world within a few seconds. By internet, we can know what is happening in every knock and corner of the world.
- Ashif : Now I want to know about the disadvantages of Internet?
- Rimon : Really, it is a great problem. Cyber crime refers to any crime that involves a computer and a network. So, the computer may have been used to commit a crime, or it may be the target Virus enters into a computer through internet and it destroys all the programmes.
- Ashif : So, we should take good things from the Internet and avoid the bad things.
- Rimon : Yes, we should do so.
- Ashif : OK. Thank you for helping me to acquire knowledge on internet. No more today. Let's go.
- Rimon : You are welcome. Let's go. See you tomorrow.
