Reading Comprehension

Marks 20

এ অংশে একটি Passage দেওয়া থাকবে। এর ওপর ভিত্তি করে (Or সহ) ৩টি Item-এর প্রশ্ন থাকবে। মোট নম্বর থাকবে ১০ + ৫ + ৫ = ২০।

প্রশ্নের ধরন সম্পর্কে সংক্ষিপ্ত আলোচনা :

1. (a) Answering questions :

2 × 5 = 10

Comprehend শব্দ থেকে 'Comprehension' শব্দটির উৎপত্তি, যার অর্থ- অনুধাবন করা। শিক্ষার্থীরা প্রদত্ত Passage-টি পড়ে কতটুকু বুঝতে পেরেছে তা যাচাই করার জন্য প্রশ্নপত্রে Comprehension Test অন্তর্ভুক্ত করা হয়। এ ধরনের প্রশ্নের উত্তর সংক্ষিপ্ত আকারে নিজের মতো করে English-এ লিখতে হয় এবং এতে বেশি নম্বর পাওয়া যায়। প্রদত্ত Passage থেকে সরাসরি Sentence তুলে দিলে ভালো নম্বর পাওয়া যায় না। যাহোক, এক্ষেত্রে প্রশ্নপত্রে ৫টি প্রশ্ন থাকবে। প্রতিটিতে ২ নম্বর করে মোট নম্বর থাকবে ১০।

(b) Writing synonyms or antonyms of the following words :

1 × 5 = 5

এই অংশে প্রশ্নপত্রে প্রদত্ত passage থেকে ৫টি word-এর synonym ও antonym লিখতে বলা হবে। প্রতিটি word-এর জন্য ১ নম্বর করে মোট নম্বর থাকবে ৫।

Or, Making sentences with phrases and idioms :

এই অংশে প্রশ্নপত্রে কিছু Phrase and Idiom দেয়া থাকবে। শিক্ষার্থীরা যেকোনো ৫টি Phrase and Idiom দিয়ে Sentence বা বাক্য তৈরি করবে। এক্ষেত্রে প্রতিটি Phrase and Idiom এর জন্য ১ নম্বর করে মোট নম্বর থাকবে ৫।

Or, Changing words into different part of speech and making sentences :

এই অংশে প্রশ্নপত্রে কিছু word দেয়া থাকবে। এগুলো থেকে শিক্ষার্থীরা যেকোনো ৫টি শব্দকে নির্দেশিত Parts of Speech-এ পরিবর্তন করে সেই শব্দগুলো দিয়ে Sentence বা বাক্য তৈরি করবে। এক্ষেত্রে প্রতিটির জন্য ১ নম্বর করে মোট নম্বর থাকবে ৫।

(c) Writing summary :

এ অংশে Comprehensive (ব্যাপক) Writing Skill যাচাই করতে প্রশ্নপত্রে প্রদত্ত Passage-টির ওপর Summary লিখতে বলা হবে। প্রশ্নটির উত্তর দিতে Passage-টি ভালোভাবে পাঠ করে এর সারাংশ লিখতে হবে। Passage থেকে সরাসরি কোনো Sentence তুলে না দেওয়াই ভালো। Summary মূল Passage-টির এক-তৃতীয়াংশ হলে ভালো হয়। এজন্য নম্বর থাকবে ৫।

FAZIL BA SECOND YEAR FINAL EXAMINATION, 2017
ENGLISH (COMPULSORY)

Subject Code : 2 0 4

Time – 3 hours

Full marks – 100

[N.B. – The figures in the right margin indicate full marks.]

Read the following passage carefully and answer the questions that follow :

Money cannot buy happiness. Money is a must for our life. But it is not the thing that necessarily brings our happiness. Happiness is absolutely a psychological thing. It is the name of a feeling. It means the contentment of the mind. He who is satisfied with what he gets and contents with his life is really happy. Happiness cannot be purchased with money. No doubt money has got something to do with happiness but it cannot give us happiness. So, we see that the richest men of our society are not the happiest men. They lead life burdened with tensions and anxieties and pass sleepless nights. On the other hand there is a large number of poor men who are happy and enjoy a sound sleep. Other hand, the man who is honest and virtuous, though not rich, does not suffer from the anguish of soul.

Read the following passage carefully and answer the questions that follow :

There are many helpless human beings in our society. Previously these younger ones were called handicapped children, disabled children or retarded children but now the psychologists and behaviourist scientists call them special children, because this term is not humiliating. These children need special attention, special care and special education. All over the world the normal people who enjoy all the facilities of the gifts of Almighty Allah are now conscious of rehabilitating their special children. Our country is not lagging behind. In the Institute of Education and Research of the University of Dhaka, a new department of special education for the teachers has been started in the recent years. It encourages the teachers to take up the responsibility and challenge for the special children of our country. Many government and NGO based institutes have been set up. International organizations are also organizing games and sports for those children and our children have already proved their mettle in the sports arena more successfully than our abled participants. Let us hope like Hellen Keller, Braille and other genius people will emerge through our sincere endeavours.

Read the following passage carefully and answer the questions that follow :

A boy or girl below the age of fifteen is a child. The manual labour given by children is called child labour. Children employed to earn money are deprived of proper education. They grow up to be illiterate and ignorant. They also do not have a proper growth of mind and body. They are also deprived of living a normal life in a loving environment. Children are employed as domestic servants, as workers in ploughing land, harvesting crops and grazing cattle. They carry earth, brick and other building materials. They work as rickshaw pullers, street hawkers and porters. They are apprenticed to mechanics or welders. They are not given proper food and clothing. They are always half-fed and suffer from malnutrition. It is the responsibility of the government and the society to protect their rights and give them education. Child labour should be banned by legislation. Parents must be conscious of sending their children to learn instead of sending them to earn.

Read the following passage carefully and answer the questions that follow :

Writing is one of the most marvelous things ever invented by man. Indeed, our present civilization depends largely upon writing. But for it, the nations of the world would at this very moment know little about one another and would still be in state of ignorance and semi-savagery.

Who was the creator of this marvelous invention? Some cavemen most likely, a man in appearance more like an ape; yet a man who was filled with the desire to make some lasting record of the strange things he saw about him. This man was also the world's first artist, for the first writing was picture writing took the form of picture of the bears and stags and other animals which lived in the forest round the caveman's home. How we know this, you may ask. The answer is, in certain parts of the world, there are caves, on the walls of which such pictures may be seen drawn and painted thousands of years of ago. These ancient cavemen had minds like small children's just as the will draw pictures of houses and cows and men and women long before they learn to write.

14. Translate the following passage into Bengali: 5

Food is one of the basic needs. We cannot live without it. It satisfies our physical hunger. It provides us with heat and energy. It helps us to carry on our daily work. In fact, we survive on earth by taking all kinds of food. But it is a matter of great regret that food is being adulterated in many ways. Dishonest businessmen are solely responsible for food adulteration. Harmful chemicals and colours are mixed with food to make it attractive. Food loses its purity in this way. When we take this adulterated food, we become ill. The government has recently set up mobile courts to punish the dishonest businessman. To stop this heinous act, the law-enforcing agencies and the conscious people of the society should work together.

Part A — Reading

Read the following passage carefully and answer the questions that follow:

Climate change is one of the most complex challenges of the century, affecting all countries, with the warming of the planet and changes in climate patterns, densely populated countries with long coastal belts, like ours, are most vulnerable. Many people might face loss of life and property and become climate refugee as the sea level rises. These are the reasons why our Prime Minister demanded a special climate fund in the Commonwealth Conference. Bangladesh will bear the brunt of effects of climate change, especially, in our endeavours to overcome poverty, attain economic growth and ensure health for all. It is climatic change that threatens to undermine our achievements, erode our hard-earned gains and seriously weaken our development initiatives in agriculture, forestry, fisheries and all other areas of economy and bio-diversity activities related to income generation for reducing poverty.

- (a) Answer the following questions (any five) : $2 \times 5 = 10$
- What do you mean by climate change?
 - Who are the worst sufferers of climate change?
 - Which countries are exposed to climatic changes?
 - What are the major threats of the changes?
 - What is the burning question at present all over the world?
 - Why does our Prime Minister demand a special climate fund?
 - Why would many people become climate refugee?
 - What kinds of efforts can we apply to overcome climate change?

Part A — Reading

Read the following passage carefully and answer the questions that follow:

It is well-known fact that the youth of any country is a great asset. They are indeed the future of the country and represent it at every level. The role of the youths in nation-building is more important than you might think. In other words, the intelligence and works of the youth will take the country on the pathway of success. As every citizen is equally responsible, the youth is too. They are the building blocks of a country.

The youths are important because they will be our future. Today they might be our partners, tomorrow they will go on to become leaders. The youths are very energetic and enthusiastic. They have the ability to learn and adapt to the environment. Similarly, they are willing to learn and act on it as well to achieve their goals. Our youths can bring social reform and improvement in society. Furthermore, the nation requires their participation to achieve the goals and help in taking the country towards progress.

Likewise, we see how the development of any country requires active participation from the youth. It does not matter which field we want to progress in, whether it is the technical field or sports field, youth is needed. It depends on us how to help the youth in playing this role properly. We must make all the youth aware of their power and the role they have to play in nation-building.

Part A — Reading

Read the following passage carefully and answer the questions that follow.

Patriotism means to love for one's own country. It is a noble virtue. It removes all sorts of meanness from human mind and makes it broad. Patriotism inspires a man to shed the last drop of blood to defend the freedom of his country. A man without this quality is no better than a beast. A true patriot is honoured by all. His only aim is to promote the welfare of his country and countrymen. He always remembers a wise saying "Mother and motherland are superior to heaven." There are some traitors too. They always try to destroy the glory of the country for self-interest. Really, they are the slur to the country as well as to mankind. They die a negligible death. Nobody mourns for them. True patriotism is beneficial to all. It brings happiness and prosperity to the nation. A true patriot has a broad and liberal outlook. He hates none. For the development of his country, he works by day and at night. For his own interest he takes little care. But narrow patriotism is not the sign of a true patriot. It is dangerous and sentimental. It leads to conflict with other nations. It acts like germs. It spoils the happy atmosphere of the country. Bangladesh needs the services of true patriots. But only patriotism is not enough. We should serve our country to the best of our ability. We must have to live taking 'cosmopolitan' spirit. We should love all without any distinction between caste and creed.

1. (a) Answer the following questions (any five).

2 × 5 = 10

- What is patriotism?
- Who is a true patriot?
- What are the bad effects of narrow patriotism?
- What do you mean by 'cosmopolitan'?
- What does a true patriot possess?

Part A — Reading

Read the following passage carefully and answer the questions that follow :

Co-operation means working together for the benefit of all. Without co-operation modern society could not exist. Co-operation has been seen at its best among farmers in the dry regions of certain parts of Australia and America. The fields have been irrigated in these regions. Crops cannot be grown without water. Water cannot be brought to the field without streams being tapped higher up. For this purpose canals and dams have been built. The canals have been cut through the fields of more than one farmer. Those who live higher up the valley than the others have allowed canals to be built through their land in order to carry water to the fields of lower down. In times of drought all are able to share the water. Instead of taking all the water for themselves, the farmers on the higher land leave enough for their neighbours down the valley. Farming in dry areas has been made possible by such co-operation. By co-operation farmers have learned to make even the desert produce crops.

Part A — Reading

Read the following passage carefully and answer the questions that follow :

Digital means computer-based network. Digital Bangladesh refers to motivate all the activities of the whole country with the help of modern computer network or internet system. Modern technology plays a vital role in this regard. We can set CCTV camera in different important points and being at one place we can control all the government and non-government offices and institutions, schools and colleges, universities, streets and highway-roads and so on. If national and international procedures can be brought under computer network, then Digital Bangladesh must be ensured. Computer based network is called Internet. Internet can play vital role to conduct education, medical science, agriculture, office, security, buying and selling, communication, publication, newspaper, entertainment, online banking system, online information centre and so forth.

In education, a student or learner can easily find the lectures of teachers through internet connection without attending the classes. In medical science, a patient being at home can easily get prescription of a specialist doctor either of home or abroad. Digital network system may help a farmer to be introduced with the new methods of cultivation and new invented production and he can apply them to increase his products. CC cameras can be set at offices so that corruption can be avoided and progress can be motivated. CC camera system may be used to trace out the criminals, arrest them and punish them. Thus terrorism can be eradicated and well security must be ensured. In field of buying and selling, we can choose our necessary things, bargain the prices and buy the things through internet.

Nowadays many things in communication are being conducted. The flight of a rocket plane for the moon is being controlled by computer network, communication with one country to another has been possible by internet. We can enjoy a cricket match held in a farthest country with the help of digital computer network system. We can send a manuscript of a book to abroad and similarly, we can bring it from abroad within a few minutes through internet.

At present, newspapers are not transported from Dhaka to Khulna, Chattogram or Rajshahi, rather the contents are sent through internet to be published. Online Banking system has already been started in some banks. People need not carry a huge bundle of money from one city to another. They can easily draw money using credit card system. Different kinds of data may be provided to the people through online information centres. If it is possible, people will be able to be voters, to correct any mistake, to change and update their data. Any way, if in all the sectors-small or big, computer based network is introduced by the government, digital Bangladesh must be established.

Part A — Reading

Read the following passage carefully and answer the questions that follow :

Education is much more than mere literacy. The concept of education is much more significant. One who enriches his head, hand and heart in a harmonious way is educated in the true sense of the term. So, here we get the concept of three H's after the acquisition of the three Rs, that is 'Reading, Writing and Arithmetic'. When a literate person uplifts himself to self learning stage, he begins to acquire the enrichment of his head, hand and heart. One who becomes an automobile engineer should have the theoretical knowledge in his 'head'. He must know to work with an automobile with his skilled 'hand' and should have the moral values to be fair in his profession in his heart. If an electronic engineer has to go to a mechanic to repair his own TV set, it shows that he is not skilled and not educated in the true sense and even has no desire in his heart to learn the skill. If one who is a holder of highest degree of education of our country takes bribe to do someone a favour, we cannot call him educated because he is not rich in heart. So let us try to develop our three H's for a peaceful and prosperous Bangladesh.

1. (a) Answer the following questions (any five) : $2 \times 5 = 10$
- (i) What is education?
 (ii) Who is educated in the true sense of the term?
 (iii) What do you understand by the three H's concept?
 (iv) What do you mean by enrichment of the heart?
 (v) What do 3 R's stand for and indicate?
 (vi) What according to the writer, is true education?
 (vii) When can't we call an educated man educated?
 (viii) When can't we call an electronic Engineer skilled?
 (ix) What is our motto about our motherland?
 (x) What should an automobile engineer have in his 'head'?

Part A — Reading

Read the following passage carefully and answer the questions that follow :

What are the demands that our freedom makes on us? Our first duty is to ourselves. I don't say this is any spirit of selfishness. If a free people do not maintain their own freedom, they disgrace the fair name of free men and women all over the world. But the maintenance of freedom requires constant vigilance. Liberty does not descend upon a people, a people must raise themselves to achieve it. It is a fruit that must be earned before it can be enjoyed. That freedom means freedom only from foreign domination is an outworn idea. It is not merely the government that should be free, but people themselves should be free and no freedom has any real value for the common men or women unless it also means freedom from want, freedom from ignorance. This is the main task which confronts us if we are to take our rightful place in the modern world. We cannot hold the clock back and, therefore, it is we who must go forward at a double pace bending all our resources and all our energies to great purpose.

1. (a) Answer the following questions (any five) : $2 \times 5 = 10$
- What happens when a free people do not maintain their own freedom?
 - How can we maintain our freedom?
 - When does freedom have its real value?
 - What must we do to be free in the real sense of the term?
 - What is our first duty?
 - What does the maintenance of freedom require?
 - When does a man disgrace the fair name of free men and women?
 - What is an outworn idea about freedom?
 - What does freedom actually mean?
 - What is freedom compared to?
- (b) Write synonyms of the following words (any five) : $1 \times 5 = 5$
freedom, selfishness, maintenance, disgrace, constant, liberty, descend, value, confront, ignorance.

Part A — Reading

Read the following passage carefully and answer the questions that follow :

Various kinds of nuclear weapons have been produced in the past few years by many countries. This is a new and terrible development in the history of mankind. Very few events can be more frightful than a nuclear war. In a nuclear war, most of the world's population will be exterminated. The few living creatures that survive will be exposed to radiation or to electric rays harmful to life. It has been said by scientists that many new diseases will be caused by radiation. There will also be an acute shortage of food, for all the crops and stores will be poisoned by radiation. Most of the areas on which nuclear bombs have been dropped will be ruined. Therefore, the survivors of a nuclear war will be sick, hungry and homeless. It might be better, perhaps, to be killed in a nuclear war than to survive it. It would be better still for men to learn to live in peace with one another. If this can be achieved, there will be no nuclear wars.

The best teachers have always emphasised the importance of self-culture and of stimulating the student to gain knowledge by the exercise of his own faculties. They have relied more upon training than upon talking and have tried to make their pupils active partners in the work of their own education but not passive receivers of information. This was the spirit in which Dr Arnold, the great Headmaster of Rugby, worked.

Part A — Reading

Read the following passage carefully and answer the questions that follow :

Happiness is an abstract word or a concept which cannot be described or defined; but it can be felt. A person may earn millions of dollars, live in a palatial building, enjoy all the facilities the modern science can provide him with; like air-cooler; audio-video, cellular phone and personal computer but he may not be happy. But a person living from hand to mouth, dwelling in a small house and amidst a lot of wants can be happy. In fact, happiness does not lie in materialistic things but it is a mental state. If there is no understanding between a married couple or among the members of the family, the palatial house will become a hell because money cannot fetch happiness or ensure happiness. A mutual understanding

and fellow feeling can make a family's poor little abode a heavenly place of peace, happiness and complacency. If one is not content with what one has, if one hankers after more and if one is jealous of other's wealth, name and fame, one cannot get happiness because one loses one's peace of mind. Sometimes suspicion between a couple destroys one's peace of mind. Happiness consists in true love, sacrifice, contentment, mutual understanding, hard work, honest bread and above all optimism. Man is a wonderful creation of the Almighty who has created him with prudence, reason, conscience, judgement to judge between right or wrong. Man cannot escape in the prick of conscience if he does wrong and thus happiness is a heavenly bliss bestowed on him from the Omniscient when he does the right thing and walks along the right path:

Part A — Reading

Read the following passage carefully and answer the questions that follow :

Coronaviruses are a large-family of viruses that typically affect the respiratory tract of mammals including humans. They cause illness ranging from the common cold, pneumonia to more severe diseases such as severe acute respiratory syndrome (SARS). Coronaviruses were given their name based on the crown-like projections on their surfaces. 'Corona' in Latin means 'crown'. A novel corona virus (nCoV) is a new strain that has not been previously identified in humans. In 2019, the Centers for Disease Control and Prevention (CDC) started monitoring the outbreak of a new Coronavirus (2019-nCoV). They first identified the virus in Wuhan city, Hubei province, China which continues to expand. A large number of people in China have contracted the virus and a considerable part of them have met with death. On 11 February 2020, the World Health Organization (WHO) named the disease Coronavirus disease 2019 (abbreviated 'COVID-19'). Coronaviruses are zoonotic, meaning they are transmitted between animals and people. Not all the infected people get the symptoms and the symptoms vary from person to person. Common signs of infection include respiratory symptoms, fever, cough, shortness of breath and breathing difficulties. In more severe cases, infection can cause pneumonia, kidney failure and even death. Actually, there are no available treatments for any human Coronavirus. Those who catch a coronavirus usually recover on their own and can ease the process by taking pain and fever medications, using a humidifier, taking hot showers, drinking plenty of fluids and staying home to rest. Several existing antiviral medicines, such as Lagevrio and Paxlovid may show some efficacy against the Novel Coronavirus. But these medicines must be prescribed by the doctors. Standard recommendations to prevent infection spread include regular hand washing, covering mouth and nose when coughing and sneezing, thoroughly cooking meat and eggs. However, awareness is very important to prevent unnecessary fear about Coronavirus. Social media has a great role to make people alert. A team of doctors, nurses and other health care professionals in every hospital should be ready round the clock to deal with the emergency if it occurs.

1. (a) Answer the following questions (any five) :

It is impossible to describe the beauty of the Taj Mahal in words. It has been called a dream in marble and a tear drop on the cheeks of time but the fairest phrases fail to do justice to the surpassing creation of art. The Taj Mahal is best seen by moonlight when the dazzling white of the marble is mellowed into a dreamy softness. The most charming view, perhaps, is obtained from the palace on the opposite bank of the river.

Part A — Reading

Read the following passage carefully and answer the questions that follow :

Patriotism means to love for one's own country. It is a noble virtue. It removes all sorts of meanness from human mind and makes it broad. Patriotism inspires a man to shed last drop of blood to defend the freedom of his country. A man without this quality is no better than a beast. A true patriot is honoured by all. His only aim is to promote the welfare of his country and his countrymen. He always remembers a wise saying "Mother and motherland are superior to heaven." There are some traitors too. They always try to destroy the glory of the country for self-interest. Really, they are the slur to the country as well as to mankind. They die a negligible death. Nobody mourns for them. True patriotism is beneficial to all. It brings happiness and prosperity to the nation. A true patriot has a broad and liberal outlook. He hates none. For the development of his country, he works by day and at night. For his own interest he takes little care. But narrow patriotism is not the sign of a true patriot. It is dangerous and sentimental. It leads to conflict with other nations. It acts like germs. It spoils the happy atmosphere of the country. Bangladesh needs the services of true patriots. But only patriotism is not enough. We should serve our country to the best of our ability. We must have to live taking 'cosmopolitan' spirit. We should love all without any distinction between caste and creed.

1. (a) Answer the following questions (any five) : 2 × 5 = 10

- (i) What is patriotism?
- (ii) Who is a true patriot?
- (iii) What are the bad effects of narrow patriotism?
- (iv) What do you mean by 'cosmopolitan'?

Part A — Reading

Read the following passage carefully and answer the questions that follow :

Bangladesh currently ranks as one of the world's foremost disaster-prone country. The situation is aggravated, all the more by its being the most densely populated country in the world. Environmental disasters like tropical cyclones, storm surges, floods, norwesters, tornadoes and droughts ravage the country almost every year. During the last forty years, the country was devastated by forty severe cyclones of varying intensities. One of the severe ones in recent times was that of 29 April 1991, when material damage was to the tune of about 2.4 billion US dollars and human casualty of about 1,40,000 lives. On a previous occasion of a similar catastrophe in 1970, about half a million lives were lost and almost two billion dollars damage caused by it. The Bangladesh flood of 1988 caused economic loss to the extent of about one billion dollar. The flood of 1998 caused economic loss to the extent of about two billion dollars. And flooding in Bangladesh is a perennial problem. Every year Bangladesh is also affected by norwesters and tornadoes causing loss of lives and immense damage to property. Though Bangladesh is affected by floods frequently it is not spared from drought which occurs in Bangladesh occasionally causing extensive damage to crops. Bangladesh also lies in the seismic zone and hence comes under the risk of earthquakes.

All these natural disasters pose a great threat to sustainable development of the country. Disasters cause immense loss of crops which could affect the food security of the country unless adequate measures are taken to replenish the loss. This puts lot of stress in the society and affects the National Security also. Disastrous weather is always a problem in operational activities. Thus proper monitoring of disasters and adequate measures for disaster management are of utmost importance for sustainable development.

Part A — Reading

Read the following passage carefully and answer the questions that follow :

Electricity is such a part of our everyday life and so much taken for granted nowadays that we rarely think twice when we switch on the light or turn on the radio. At nights roads are brightly lit, enabling people and traffic to move freely. Neon lighting used in advertising has become a part of the character of every modern city. In the home, many labour saving devices are powered by electricity. Even when we turn off the bedside lamp and are fast asleep, electricity is working for us, driving our refrigerators, heating our water, or keeping our rooms air-conditioned. Everyday, trains, trolley-buses and other vehicles take us to and from work. We rarely bother to consider why or how they run-until something goes wrong. In the summer of 1959, something went wrong with the power plant that provides New York with electricity. For a great many hours, life came almost to a standstill, trains refused to move and the people in them sat in the dark, powerless to do anything; lifts stopped working, so that even if you were lucky enough not to be trapped between two floors, you had the unpleasant task of finding your way down hundreds of flights of stairs. Famous streets like Broadway and Fifth Avenue in any instant became as gloomy and uninviting as the most remote back streets. People were afraid to leave their houses, for although the police had been ordered to stand by in case of emergency, they were just as confused and helpless as anybody else. Meanwhile, similar disorder prevailed in the home. New York can be stifling in the summer and this year was no exception. Food went bad in refrigerators. Cakes and joints of meat remained uncooked in cooling ovens, and people sat impatient and frightened in the dark as if an unseen enemy had landed from Mars. The only people who were not troubled by the darkness were the blind.

1. (a) Answer the following questions (any five) :

$2 \times 5 = 10$

- What has become a part of the character of every modern city?
 - When had the police been ordered to stand by the people?
 - What's the role of electricity when we sleep at night?
 - What's the condition of food in refrigerators when electricity stops?
 - How are the people if electricity has gone?
 - What happened during the summer of 1959?
 - What makes the roads brightly lit?
 - Where are many labour saving devices powered by electricity?
 - What was the impact on public life after the power failure in New York in 1959?
 - Who are not merely troubled by the darkness?
- (b) Write antonyms of the following words (any five) : $1 \times 5 = 5$

Model Test 01

1. (a) (i) Working together for the benefit of all is called co-operation.
 (ii) In some parts of the arid regions of Australia and America, co-operative attitudes are widely observed among farmers.
 (iii) Canals and dams are essential to bring water in the dry land. Without co-operation, dams and canals cannot be built. So, co-operation is essential in farming in the dry land.
 (iv) The people living on higher ground allow others to dig canals over their fields/lands to provide water for the people living on the lower ground. Again instead of using all the water for themselves, the men on the higher land leave enough water for their neighbours.
 (v) Co-operation among the farmers has made the desert produce crops.
 (vi) Modern society depends on people helping one another. Without co-operation, many necessary works can not be done.
 (vii) Canals and dams are used to supply water from rivers to the fields. Because, in the arid season, it is nearly impossible to grow crops without water.
 (viii) In the dry areas of Australia and America, farming has been made possible by the way of irrigating the lands through co-operation of the farmers.
 (ix) In the passage, the writer says about the importance of co-operation among the people in society.
 (x) Farmers in dry regions benefit from co-operation by sharing resources like water, which allows them to grow crops even in challenging environments.

(b)	Given Words	Antonyms
	Benefit (n.)	harm, disadvantage
	Certain (adj.)	uncertain
	Allow (v.)	forbid, prevent, disallow
	Able (adj.)	incapable, unable
	Enough (adj.)	insufficient
	Leave (v.)	accept, take
	Possible (adj.)	impossible, unattainable
	Produce (v.)	destroy
	Share (v.)	retain
	Exist (v.)	die

- (c) Co-operation is very important in every sphere of life. It is more essential in agricultural farming. It is impossible to grow crops without water. Again to bring water, canals and dams are to be built. It is difficult for an individual to do all these. By co-operation, the farmers can make even the desert produce crops.

Model Test 10

1. (a) (i) Neon lighting has become a part of the character of every modern city.
(ii) The police had been ordered to stand by the people in case of emergency.
(iii) When we sleep at night, electricity makes our refrigerators drive, our water heat and keeps our rooms air-conditioned.
(iv) When electricity stops, food goes bad in refrigerators.
(v) If electricity stops, people become impatient and frightened and remain seated in the darkness like the blind.
(vi) During the summer of 1959, something went wrong with the power plant that provides New York city with the electricity.
(vii) Electricity makes the roads brightly lit.
(viii) Many labour saving appliances in homes are powered by electricity.
(ix) The few hours of the 1959 blackout were devastating for New Yorkers. It was as if public life had stopped due to lack of electricity. All electric vehicles were stopped. There was silence in the streets. People were afraid to leave their homes. All electrical appliances in the house were switched off. Due to the heat of summer, all the food items in the refrigerator got spoiled at that time. At that time, people went through a kind of panic period.
(x) Only blind people are not troubled by the darkness.

(b)	Given Words	Antonyms
	Freely (adv.)	unwillingly
	Modern (adj.)	old, ancient
	Heat (n.)	cold
	Wrong (adj.)	right
	Famous (adj.)	notorious
	Remote (adj.)	nearby, close
	Disorder (n.)	order
	Enemy (n.)	friend
	Emergency (n.)	calm, normality
	Dark (n.)	light

- (c) Electricity plays a very active role in every walk of our daily life. It has made our life happy and exhilarated. It keeps our food fresh by driving refrigerators. It has shown us ways in the darkness. It takes us to the remote places indirectly within a few hours. Without electricity, we shall be confused and helpless like the blind. So, the role played by electricity is undeniable in our practical life.

3. Shahzadpur, Sirajgonj.

Date : 10-08-20----

Dear Nahid,

Assalamu alaikum.

I am writing this with a very heavy heart. I just heard the news about your elder brother. I am deeply shocked and saddened.

Your brother was a true hero. He took part in the July Revolution, 2024 because he loved our country. His sacrifice is great, but I know the pain of losing him is even greater. I cannot imagine how difficult this time is for you and your family. May Almighty Allah forgive him and grant him Jannatul Ferdous as a "Shaheed."

Please, stay strong. Your brother's bravery will never be forgotten. He will always be remembered as a martyr for our freedom. My thoughts and prayers are with you. If you need someone to talk to or need any help, please let me know. I am always here for you.

With deepest sympathy,

Mihad

4. (i)

Citizen Rights

Citizen rights are the basic rights of the people of a country. These rights help a person live with freedom and dignity. Every citizen has the right to life and personal security. He has the right to express his thoughts and opinions freely. He can speak, write and share ideas without fear. He also has the right to practice his own religion. No one should stop him from following his faith peacefully. A citizen has the right to education and proper medical care. These rights help him build a better future. A citizen also has the right to vote in elections. Through voting, citizens choose their leaders. The Constitution of Bangladesh guarantees these fundamental rights. It says that all citizens are equal before the law. No one should face discrimination because of religion, race, or gender. If a citizen's rights are violated, he can go to court for justice. The Supreme Court of Bangladesh protects the rights given by the constitution. However, rights always come with duties. A citizen must obey the laws of the country. He should respect other people and their opinions. He should pay taxes honestly and take part in social work. When citizens are aware of their rights and duties, the country becomes just and strong. Therefore, citizen rights are very important for democracy and national development.

5. (ii)

Causes of Road Accidents in Bangladesh

Road accidents are one of the most serious problems in Bangladesh. Every year, thousands of people die or are injured on our roads. This tragedy causes immense pain to families and hurts the national economy. While the government tries to improve infrastructure, the number of accidents remains very high. To solve this issue, we must first understand the many reasons why our roads have become so dangerous.

The biggest cause of road accidents is reckless driving. Many drivers do not value human life and drive at very high speeds. They often ignore traffic signals and signs. Overtaking is another major issue. On narrow highways, drivers try to pass other vehicles without having a clear view of the road ahead. This leads to deadly head-on collisions. Most drivers are in a hurry to make more trips and earn more money, which puts everyone at risk.

The physical condition of transport in Bangladesh is very poor. Many buses, trucks, and rickshaws are "unfit" for the road. They have broken brakes, weak lights, and old tires. These mechanical failures often cause the driver to lose control. Additionally, our roads are not wide enough for the huge volume of traffic. Many highways are full of potholes and lack proper dividers. During the monsoon, the roads become slippery, making it even harder for old vehicles to stay on track.

A large number of drivers in Bangladesh do not have a proper education or a valid license. Many get their licenses through corruption without passing a real driving test. They do not know the basic traffic laws or the meaning of road signs. Furthermore, there is a lack of awareness among the general public. Many pedestrians do not use foot-over bridges and try to cross busy roads while using their mobile phones.

During the previous Sheikh Hasina regime, the transport sector faced a lot of criticism. People accused the government of allowing transport syndicates to run unfit vehicles. In 2018, students started a massive "Safe Roads Movement" demanding justice and better laws. However, many of these demands were not fully met. Corruption in the system allowed unlicensed drivers to stay on the road, leading to a continuation of the "silent killing" on the highways.

Road accidents are a curse that we must stop immediately. It requires a combined effort from the government, drivers, and citizens. We need strict law enforcement, better road maintenance, and proper training for all drivers. Removing unfit vehicles and creating public awareness can save thousands of lives. If we all follow the traffic rules, we can make our journey safe and beautiful.
